Part I. Mission and Activities

MISSION STATEMENT
We use collaboration, interdisciplinary methods, civic engagement, and our knowledge of advanced spatial technologies to provide reliable information, thoughtful analysis, and creative solutions for the improvement of communities and organizations in Indiana and beyond through work in four areas of emphasis: geoinformatics, community informatics, health geoinformatics, and spatial humanities. We also offer professional education, mostly related to our work in geoinformatics.

ACTIVITIES
We managed more than 60 projects in FY2012 within our areas of emphasis; 63 percent of these projects were new grants or contracts. The following description highlights our major accomplishments in each area of emphasis and in a major civic enterprise, the Spirit &Place Festival, which we direct on behalf of IUPUI and the IU School of Liberal Arts.

Geoinformatics
In this area, we combine geospatial analysis and modeling and outreach activities to address problems commonly faced by private companies and government officials. The majority of our FY2012 grants and contracts supported activities that can prevent or reduce the significant losses that result from natural disasters. In Indiana we have helped 72 counties develop successful hazard mitigation plans. Other states in the Midwest and South have adopted our model, and as a result, we have ongoing partnerships with state and local agencies and universities in Illinois, Texas, Ohio, Georgia, Wisconsin, and Minnesota.

Key Accomplishments in FY2012
We continued our partnerships with Southern Illinois University-Carbondale and Texas Natural Resources Information System to complete hazard mitigation plans for several Illinois and Texas counties respectively. We also established new partnerships in Ohio (University of Cincinnati, Hamilton County, and Ohio Department of Public Safety) and Georgia (University of Georgia and Georgia Emergency Management Agency).

We initiated a partnership with the Indiana Department of Natural Resources (IDNR) to implement the federal Risk Mapping, Assessment, and Planning (Risk MAP) program developed by the Federal Emergency Management Agency (FEMA) to deliver quality flood data to increase public awareness and promote disaster-resilient communities. Our staff assists IDNR with flood identification and mapping efforts and outreach to help the communities identify, assess, and mitigate flood-related risks.

Our strong relationships with state governments, central Indiana local governments, and private sector GIS companies enabled us to work with the Metropolitan Board of REALTORS® (MIBOR) to author a variety of GIS and property information. The information is used by REALTORS®, appraisers, and county assessors to determine property values.
Community Informatics

This area focuses on (1) creating and using community information systems (CIS) and information technologies to improve decision making in nonprofits, community-based organizations, government agencies, higher education, and researchers; (2) building capacity in organizations to use these technologies and data for effective decision making; and (3) using CIS to understand community issues and their impact on quality of life. The SAVI Community Information System, our cornerstone project, has over 10,000 indicators of social and economic conditions and over 20,000 community asset locations for Central Indiana.

Key Accomplishments in FY 2012

We developed and expanded CIS through two grants—a $200,000 grant from Lilly Endowment to continue development of SAVI, and a $191,000 grant from Richard M. Fairbanks Foundation to increase SAVI’s data and analysis tools to support the needs of public health audiences. We also successfully piloted the use of mobile technologies to support neighborhood data collection and mapping, and we made progress toward expanding SAVI statewide through relationships with Indiana Rural Health Network, health information exchanges, and several Indiana communities.

We trained over 400 people on the use of CIS and data for effective decision making. Additionally, we partnered with the IUPUI Solution Center to co-host the 2011 Indiana Nonprofit Capacity Building Conference, which drew over 340 registrants representing 187 organizations across the state and featured 26 workshops. Through a new partnership with the Indiana Office of Faith-based and Community Initiatives, we have merged this conference with the Governor’s Conference on Service and Volunteerism to establish the Governor’s Conference of Service and Nonprofit Capacity Building (October 2012), which will expand our ability to build capacity in organizations across the state to use data and CIS.

We partnered with the national Local Initiatives Support Corporation (LISC) and its Indianapolis affiliate on a strategy to create sustainable communities by developing a model, which can be replicated in other communities, to evaluate community development initiatives and their impact on quality of life in six Indianapolis neighborhoods. We also supported the Early Intervention and Prevention Initiative, a city-wide collaboration of over 100 organizations, led by the Marion County Commission on Youth, in its strategic planning and program implementation by using data to understand key community issues and risk factors of child abuse and delinquency. Finally, we supported data needs of the Central Indiana Talent Alliance, a cradle to career educational pipeline initiative.

Sharon Kandris, director of community informatics, continues to serve on the Indianapolis Quality of Life Planning Advisory Council, which assists neighborhoods in quality of life planning through research and neighborhood-level data, as well as on the Steering Committee and the “Co-location of Services” and “Central Database” Implementation Teams. Kandris serves as co-chair of the Out of School-time Implementation Team, and she and Jay Colbert both serve on the Data Committee providing data, mapping, and analysis to help teams address issues related to the educational pipeline.
Health Geoinformatics

This area serves health researchers, practitioners, and communities interested in using spatial information for health research, planning, and delivery. Our associated research goals are to facilitate spatial data mining of synthesized clinical and community data, develop spatial analytics, create tools for decision-making, and build community engagement platforms, all in support of public health and clinical research.

In FY2012, we advanced our strategic goal of continued integration of the SAVI community information system with electronic health record systems to provide a means to manage, share, monitor, and integrate spatial information with the interactions among the social and physical environment and human diseases.

Key Accomplishments in FY 2012

We developed a partnership with the IU School of Health and Regenstrief Institute to secure a 2012-2013 IU Collaborative Research Grant (IUCRG) to develop neighborhood-level health indicators from the Indiana Network for Patient Care (INPC) clinical data system; integrate these with social indicators to create neighborhood snapshots; and assess the utility of the indicators for neighborhood units.

We developed and tested GIS-based Web services to enable pediatricians to help patients address health concerns or needs via the NLM-supported CHICA-GIS research project (PI: Dr. Gil Liu, IU Children’s Health Services Research).

We continued to enhance and maintain the ICEPHI geo-coding service, initially funded as part of a large grant from the Centers for Disease Control, to augment, in near-real time, clinical data captured in the INPC with geospatial attributes. This server has now geo-coded more than 60 million records, with an additional 350,000 geo-coded every evening. We published this work in a refereed journal article in Public Health Reports and presented at two associated national conferences: the American Medical Informatics Association 2011 Annual Symposium in Washington, D.C. and the Public Health Informatics 2011 Conference in Atlanta, Georgia.

Toward our strategic goal of building community engagement platforms for public health research, we partnered with the Center for Health Policy at IUPUI to outline a joint Indiana Community Health Needs Assessment Program (IN-CHAP) that will provide assistance to hospitals and health systems, health-based community organizations, and public health agencies for community health assessment and health improvement planning. As part of this program, we will leverage SAVI and ICEPHI infrastructure to develop cutting-edge applications of geographic and community information methods and technologies to assist hospitals, public agencies, health-focused community organizations, and CTSI researchers in understanding where and when to intervene for improved health outcomes.
### Spatial Humanities

This area serves an international community of humanities scholars who are interested in applying geospatial technologies to the disciplines within the humanities.

#### Key Accomplishments in FY 2012

We held two major grants from the National Endowment for the Humanities during the period of report. The first (PR-50088-10, New Tools for the Humanities: Visualizing Complex Spatial Data $224,575) allows us to revamp an existing scholarly resource, the Digital Atlas of American Religion (previously the North American Religion Atlas), and to provide much more robust visualization capabilities. It marks a major advance in the geospatial toolset available to scholars of American religion, as well as to researchers in American history. It also represents a significant accomplishment for the Virtual Center for Spatial Humanities, a four-university collaboration that supported this project. (The universities are Florida State University, West Virginia University, University of Richmond, and IUPUI.) The project already has presented its work at major conferences in the US, Europe, and Asia; the beta version of the website will be released in fall 2012.

The second NEH grant (HT-50049-11, Spatial Narratives and Deep Maps: Explorations in the Spatial Humanities, $241,513) funded an Advanced Institute in the Spatial Humanities, with a focus on deep maps and spatial narratives. From June 18 to 28, twelve invited participants from the US and Europe met at The Polis Center to develop a theory and set of practices for these two important themes in the spatial humanities. The institute was preceded by an expert workshop in Denver from March 9 to 11 at which ten scholars developed essays on various facets of deep mapping that served as reading for the institute and will become a title in the Indiana University Press Series on the Spatial Humanities, which Polis established and for which David Bodenhamer serves as general editor. (The year also witnessed the issuance of contracts for six titles in this series.) The grant continues into FY 2013, as Polis will work to develop a prototype deep map, a step that promises to shape how humanists manage research questions relating to the influence of real and conceptual space on humane events and behavior.

David Bodenhamer continues to serve as co-editor of the *International Journal of Humanities and Arts Computing* (Edinburgh University Press), which had special issues devoted to the spatial humanities. Bodenhamer also served on the international advisory committee for TELDAP, a major Taiwan initiative in the digital humanities and grid computing, and in FY 2013 will be helping Academia Sinica, the managing partner in Taiwan, to set an agenda for future work to be funded by the Taiwanese government. Neil Devadasan, lead systems engineer, led a significant development effort to add new capabilities to the Digital Atlas of American Religion, which in turn will benefit other Polis initiatives in community informatics and in geoinformatics.
Professional Education
One of the key goals of our professional education program is in the application of geospatial technologies for reducing social and economic impacts from natural hazards, particularly through FEMA’s Hazus program.

Key Accomplishments in FY 2012
Hazus-MH is the federally-sponsored system that assists US communities in developing required disaster mitigation plans. We continue to serve as a leader in the development of Hazus curriculum as well as the instruction of Hazus and other FEMA courses, and in August 2011, we received FEMA’s Outstanding Hazus Education Award.

We conducted a workshop for Natural Resources Canada in Vancouver in the scientific methodology and practical applications of a Canadian version of Hazus-MH. We also delivered a recommendations report to propose strategies for collecting, managing, and applying risk- and hazard-related information in support of the goals of Canada’s National Disaster Management Plan. We will conduct a second workshop in Ottawa in FY 2013.

We developed a partnership with the National University of Singapore (NUS), a leading natural hazards research institution, and accompanied FEMA officials to Singapore to provide technical expertise on Hazus-MH. A follow-up visit is planned for fall 2012 to explore the development of a regional collaboration for pursuing research on common hazards and modeling methodologies.

Kevin Mickey, director of professional education, continues to chair the Indiana Geographic Information Council (IGIC) Education Committee and serves on the IGIC Board of Directors. IGIC is a nonprofit organization whose mission is to lead the effective application of geographic information in Indiana. Mickey was elected to a two-year term on the Executive Committee of the National Institute of Building Sciences Multihazard Mitigation Council (MMC), which focuses on reducing the total consequences and costs associated with natural and man-made hazards to buildings and infrastructure. He also chairs the MMC Communications and Education Committee. Mickey continues to serve on the Urban and Regional Information Systems Association (URISA) Workshop Committee, a nonprofit association of professionals using geospatial technologies to solve challenges in state/provincial, regional and local government agencies and departments.

Spirit and Place Festival
The annual Spirit and Place Festival is a collaborative community project managed by The Polis Center with a mission is to be a catalyst for civic engagement and enduring change through creative collaborations among the arts, humanities, and religion. The FY 2012 festival, themed The Body, presented 45 programs featuring 491 artists, scholars, and presenters.

Key Accomplishments in FY 2012
Over the course of twelve months, Spirit and Place served 19,164 people. Attendance at the 2012 festival totaled 8,310, 52.8% of which were new festival attendees; 47% of the new attendees were under the age of 35. Four hundred and seventy-six volunteers helped with the festival,
logging 4,249 volunteer hours. A public survey revealed that 94.4% of polled attendees agreed that presenters were excellent, 71.2% plan on taking action, and 94.6% agreed that content was compelling.

One hundred and twenty-five organizations participated in the festival as partners, and 153 staff logged 2,153 hours. Investment in festival programs totaled $198,966. A partner survey revealed that 43.2% of participating organizations were first-time participants, 81.8% developed new partnerships, 71% developed new audiences, and 90% rated festival support as helpful.

The operating budget for the festival was $339,672, and the value of in-kind services totaled $54,808.

Major partners and funders included Allen Whitehill Clowes Charitable Foundation, Inc; Butler University; Christel DeHaan Family Foundation; Franklin College; H. Wilbur Hardacre Charitable Trust; Harrison Center for the Arts; Hilton Indianapolis Hotels & Suites; Indiana Historical Society; Indiana Humanities; Indianapolis Museum of Art; IndyTalks; IU School of Dentistry; IU School of Liberal Arts; IU School of Medicine; IUPUI; IUPUI Office of Diversity & Inclusion; Lilly Endowment Inc.; Marian University; Muslim Alliance of Indiana, Congregation Beth-El Zedeck; North United Methodist Church; NUVO; Second Presbyterian Church; St. Paul’s Episcopal Church; The Indianapolis Foundation, an affiliate of CICF; University of Indianapolis; WFYI; Wishard Health Services.

Communications
   Key Accomplishments in FY 2012
   We redeveloped our website (http://www.thepoliscenter.iupui.edu) and created a Facebook page, both of which are regularly updated.

PLANNED ACTIVITIES
   We will continue the program of work outlined in each of the areas above and respond to new opportunities appropriate to our mission.
Part II: Organizational Structure

ORGANIZATIONAL STRUCTURE
Polis operates as a matrix organization, with directors for each area of emphasis who draw from a common pool of technical support staff for specific project needs. We also staff a communications function that supports our major areas of work.

Administration
David Bodenhamer, Executive Director (also directs the Spatial Humanities area)
Dave Coats, Associate Director
Sara Hausermann, Business Manager
Gloria Harmsen-Hastings, Financial Assistant
Denise Dearth, Senior Executive Secretary

GIS Resources
John Buechler, Director
John Hayes, GIS Applications Specialist
Matthew Riggs, GIS Analyst
Melissa Gona, GIS Analyst
Richard Stevens, GIS Analyst
Christine Schmitz, GIS Intern
Goutami Nalla, GIS Intern
Kavya Urs Beerval Ravichandra, GIS Intern
Sonia Davidson, GIS Intern
Jack Schmitz, Project Engineer
Nan Ye, GIS Intern

Health Geoinformatics
Karen Comer, Director
Michelle Derr, GIS Analyst
Jennifer Wright, Intern
Chris Farah, Post-Doctoral Fellow (shared with Center for Health Geographics)

Community Informatics
Sharon Kandris, Director
James Colbert, GIS Analyst
Richard Anderson, GIS Analyst

Systems Development
Neil Devadasan, Lead Systems Engineer/Systems Engineering Manager
James Dowling, Database Administrator
Robert Ferrell, Programmer
John Gona, LAN Technician
Gautham Bavandla, Software Development Intern
AvSA BOARD/COMMITTEE MEMBERS

Our project diversity requires that we operate several advisory boards in order to achieve the best and most relevant advice for work. These boards are all advisory and meet regularly, as indicated.

**Geoinformatics**
We use the Indiana Silver Jackets, a federal-state coordinating body, as a de facto advisory group for our work in geoinformatics. It meets monthly.

**Indiana Silver Jackets:**
Robert Barr, Center for Earth and Environmental Science, IUPUI
Siavash Beik, Christopher B. Burke Engineering, Ltd.
Brandon Brummett, US Army Corps of Engineers
Glenn Cekus, Environmental Protection Agency
Dave Coats, The Polis Center, IUPUI
Amy Cornell, Indiana State Department of Agriculture
Bob Demuth, Indiana Department of Transportation
Mark Fenbers, National Weather Service
Jane Hardisty, Natural Resources Conservation Service
John Hill, Indiana University
Manuela Johnson, Indiana Department of Homeland Security
Dianna Love, US Department of Housing and Urban Development
Erin Maloney, Federal Emergency Management Agency
Venkatesh Merwade, Purdue University
Scott Morlock, US Geological Survey
Rodney Renkenberger, Maumee River Basin Commission
Ken Smith, Indiana Department of Natural Resources
Jim Sparks, Indiana Office of Technology
Adam Watts, Indiana Department of Environmental Management
Kathleen Weissenberger, Office of Community and Rural Affairs
Community Informatics

SAVI Advisory Board:
Frank Alexander, Pastor, Oasis of Hope Church
David Bethuram, President, Catholic Charities Indianapolis
Laura Bramble, CEO, Indianapolis Marion County Public Library
Dr. Virginia Caine, Director, Marion County Health Department
Moira Carlstedt, President, Indianapolis Neighborhood Housing Partnership
Alan Cloe, Executive Vice President of Content Services, WFYI
Ron Gifford, Executive Vice President, Public Policy, Central Indiana Corporate Partnership
Emily Hardwick, CHEP Program Manager, Indiana CTSI, Community Health Engagement Program
Marya Jones, Attorney at Law, Jones & Kennedy, LLC
John Krauss, Executive Director, Indiana University Public Policy Institute
Sara Laycock, Economic and Community Development Liaison, Metropolitan Indianapolis Board of Realtors
Lee Lewellen, President, Lewellen Progress Strategies, LLC
Douglas Miller, Co-Director, Indiana CTSI, Community Health Engagement Program
Jim Sparks, Geographic Information Officer, Indiana Office of Technology
Brian Steuerwald, Vice President for Institutional Research and Sponsored Programs, Martin University
Andrew Swenson, Principal Planner, Indianapolis Metropolitan Planning Organization
Anne-Marie Taylor, Executive Director, Indianapolis Neighborhood Resource Center
Sara VanSlambrook, Program Officer, Local Initiatives Support Corporation
Kevin Whiteacre, Director, Community Research Center, University of Indianapolis
Sharon Kandris, The Polis Center, ex officio
David Bodenhamer, The Polis Center, ex officio

SAVI Data Advisory Committee:
Jay Colbert, The Polis Center, IUPUI
Bob Cross, United Way of Central Indiana
Lynn Engel, Connect2Help
Nedra Feeley, Consultant
Tricia Frye, Planning, Indianapolis Public Schools
Joe Gibson, Marion County Health and Hospitals
Emily Krauser, Indiana Youth Institute
Kirsten Gronberg, IU School of Public and Environmental Affairs
Matt Hannigan, Indianapolis-Marion County Public Library
Denise Luster, United Way of Central Indiana
Marc McAleavy, Indianapolis Neighborhood Resource Center
Russell McClure, Planning, Indianapolis Public Schools
Andy Swenson, Indianapolis Metropolitan Planning Organization

Governor’s Conference on Service and Nonprofit Capacity Building – Program Committee:
Marie Beason, Manager, Educational Programs, Indiana Grantmakers Alliance
Mariann Bernlohr, Program Manager, Indiana Office of Faith-based and Community Initiatives
Dave Coats, Associate Director, The Polis Center, IUPUI
Kimberly Donahue, Director, Nonprofit Training Center, United Way of Central Indiana
Emily Hardwick, CHEP Program Manager, Indiana Clinical & Translational Sciences Institute
Marilyn H. Kuhn, Chief Operating Officer, The Center on Philanthropy at Indiana University
Abigail Lawlis Kuzma, Director and Chief Counsel, Consumer Protection Division, Office of the Indiana Attorney General
Debbie Pidgeon, Chief Operating Officer, Indiana Office of Faith-based and Community Initiatives
January Portteus, Office of the Indiana Attorney General

Governor’s Conference on Service and Nonprofit Capacity Building – Marketing Committee:
Andrew Hayenga, Account Executive, Bohlsen Group
Ruth Hinkle, Communications Intern, The Polis Center, IUPUI
Deeksha Kapoor, Social Media Intern, The Polis Center, IUPUI
Derek Trovillion, Director of Marketing and Communications, Indiana Office of Faith-based and Community Initiatives

Health Geoinformatics
Center for Health Geographics Faculty Advisors:
Marc Rosenman, MD, IU School of Medicine and Regenstrief Institute
Shaun Grannis, MD, MS, IU School of Medicine and Regenstrief Institute
Gilbert C. Liu, MD, MPH, IU School of Medicine
Sarah Wiehe, MD, MPH, IU School of Medicine
Jeff Wilson, PhD, IU School of Liberal Arts
Dan Johnson, PhD, IU School of Liberal Arts
Rudy Banerjee, PhD, IU School of Liberal Arts

Community Health Informatics Advisory Committee:
Bill Barnett, Senior Manager, Life Sciences, IU’s Research Technologies
Roland Gamache, Assistant Research Professor of Medicine, IU School of Medicine
Julie Gray, Extension Educator, Consumer & Family Science, Purdue University
Emily Hardwick, CHEP Program Manager, Indiana Clinical & Translational Sciences Institute
Kate Johnson, Program Manager, Indiana Public Health Training Center
Jerry King, Executive Director, Indiana Public Health Association
Carolyn Muegge, Director, Research Development, Community Health Network, Inc
Anita Ohmit, Director of Research, Indiana Minority Health Coalition
Pam Pontones, State Epidemiologist, Indiana State Department of Health
Matthew Ritchey, Epidemiology Advisor, Indiana State Department of Health
Marc Rosenman, Research Scientist, Regenstrief Institute and IU School of Medicine
Champ Thomaskutty, Chronic Disease Epidemiologist, Indiana State Department of Health
Gary A. Weir, Sr., Health Information Specialist, Marion County Health Department
Terrell Zollinger, Director, Epidemiology Division, IU SOM Department of Public Health
Spatial Humanities

Executive Committee (develops strategic plans, sets agenda):
John Corrigan, Florida State University
Trevor Harris, West Virginia University
David Bodenhamer, IUPUI

Members:
Ed Ayers, University of Richmond, USA
Peter Bol, Harvard University, USA
Peter Doorn, Dutch Archives and Networking Service (DANS), Netherlands
I-chun Fan, Academia Sinica, Taiwan
Michael Goodchild, University of California-Santa Barbara, USA
Yuzuru Isoda, Ritsumeikan Asia Pacific University, Japan
Kim Knott, University of Leeds, UK
Anne Knowles, Middlebury College, USA
Andreas Kunz, Institute of European History (Mainz), Germany
Lew Lancaster, University of California-Berkeley, USA
Gary Lock, University of Oxford, UK
Barney Warf, Kansas University, USA
May Yuan, Oklahoma University, USA

Spirit and Place Festival

Advisory Board (sets policy, selects themes, provides strategic direction):
David Wantz, Chair, Assoc. V.P., Corporate & Comm. Relations, University of Indianapolis
David Kosene, Vice Chair, President, Kosene and Kosene Development & Mgmt Co., Inc.
Robin Thoman, Vice Chair, Managing Partner, Paradox Dental Center
Scenario Adebesin, Vice President, Community Development, Fifth Third Bank
Keira Amstutz, CEO, Indiana Humanities
David Bodenhamer, Executive Director, The Polis Center, IUPUI (ex officio)
Ronald Caltabiano, Dean, Jordan College of Fine Arts, Butler University
Ken Durgans, Assistant Chancellor, Diversity, Equity & Inclusion, IUPUI
Dr. Lewis Galloway, Senior Pastor, Second Presbyterian Church
Colleen Heeter, President, JGH Advisors
Charlie Hyde, Membership Director, Indianapolis Zoo
Michael Kaufmann, Director of Special Projects and Civic Investment, Wishard Health Services
Cheri O’Neill, Executive Director, Alpha Chi Omega
Leslie Kidwell, Major Gifts Associate, IU School of Liberal Arts, IUPUI (ex officio)
Shariq Siddiqui, Director of Development, IU School of Education, IUPUI
Joanna Taft, Director, Harrison Center for the Arts

Steering Committee (leverages theme-specific content and relationships):
Mary Fortney, Educational Resource Developer, The Children’s Museum of Indianapolis
Bruce Hetrick, President, Powerful Appeals, Inc.
Tony Mason, Senior Vice President, 2012 Indianapolis Super Bowl Host Committee
Jim Walker, Founder and Executive Director, Big Car Gallery
David Wantz, Assoc. V.P., Corporate & Comm. Relations, University of Indianapolis
Tom Weidenbach, Arts Senior Manager, The Garfield Park Arts Center, Indy Parks & Recreation
Bob Whitt, Executive Director, White River State Park Foundation

Promotions Committee (advises on strategy and supports execution):
Jordan Bishop, Account Executive, Bohlsen Group
Vicki Bohlsen, President, Bohlsen Group
Nicole Brandt, Marketing Director, Indianapolis Opera
Linda Broadfoot, Executive Director, Indianapolis Public Schools Education Foundation
Theresa Browning, Director of Development and Communications, Indiana Bar Foundation
Kirsten Eamon-Shine, Communications Manager and Consultant, Little Light Writing
Tonic Gallery
Jessica Kiefer, Account Executive, Bohlsen Group
Amanda Parrett, Events Intern, Bohlsen Group
Chelsea Smock, former Sponsorship Intern, Indianapolis 500 Festival
Evan Strange, Marketing & Communications Coordinator, Indianapolis Convention & Visitors Association
Yolanda White, Account Manager, Borshoff

Event Selection Committee (reviews and selects applicant programs):
Judith Cebula, Director, The Center for Faith and Vocation, Butler University
Ernest Disney Britton, CEO and Project Director, Alpha & Omega Project for Contemporary Religious Arts
Colleen Heeter, President, JGH Advisors
Kristin Hess, Communications and Program Officer, Indiana Humanities
Brandon Judkins, Director of Programs, Indiana Humanities
Erin Kelley, Director, Education & Community Engagement, Indiana Historical Society
Peggy Lee, Faculty Chair for Undergraduate Programs, Kelley School of Business Indianapolis, IUPUI
Shari Lipp-Levine, Program Director, Congregation Beth-El Zedeck
Gail Payne, Owner, The Goods
Beth Perdue Outland, Vice President, Learning Community, Indianapolis Symphony Orchestra
Ben Shine, Director of Communications, Indianapolis Art Center
Gail Thomas Strong, Vice President, Community Engagement, WFYI
Nathan Wilson, Senior Minister/Faith Forum Editor, First Christian Church, Shelbyville/Indy Star

Festival Volunteers:
Linda Brothers, Associate Professor, Department of Tourism, Conventions, and Event Management, School of Physical Education & Tourism Management, IUPUI

Business Model (devising a case for support and financial models):
David Kosene, President, Kosene and Kosene Development & Mgmt Co., Inc.
Cheri O'Neill, Executive Director, Alpha Chi Omega
Robin Thoman, Managing Partner, Paradox Dental Center
David Wantz, Assoc. V.P., Corporate & Comm. Relations, University of Indianapolis
Shariq Siddiqui, Director of Development, IU School of Education, IUPUI

Signature Events (works to create a series of opening weekend events):
Shauta Marsh, Executive Director, iMOCA
Joanna Taft, Director, Harrison Center for the Arts
Callie Smith, Program Manager for Lifelong Theological Education, Christian Theological Seminary

FORMAL RELATIONSHIPS
We have a large number of collaborators—indeed, almost all of our projects are collaborative—but the relationships are ad hoc and dependent upon project initiatives.

Part III: Finances

SUSTAINABILITY
Our goal is to enter each fiscal year with at least of 75 percent of required income under contract because our 23-year experience as a self-supporting center suggests we will be able to develop new projects in sufficient number to maintain a healthy working margin of eight to twelve months of fully funded work. We have met this goal for FY 2013. In addition we have a reserve fund of approximately $500,000, to which we add indirect cost recovery and residuals throughout the year. For FY 2013, we anticipate receiving $300,000 of indirect cost recovery and approximately $200,000 in residuals from grant accounts. Our aim is to develop a contingency fund of at least $2 million by FY 2015.

CURRENT GRANTS
Note: Secured contracts and grants for FY 2013 are identified in the following table by an asterisk.

Part IV: Problems and Threats

1. Negotiating contracts after awards continues to take a significant amount of time. The Office of Research Administration is helpful but overburdened. It is not uncommon for us to delay projects for three to six months simply because we have an award but no contract. This problem often causes significant issues with project management and deadlines for deliverables.

2. We continue to experience significant delays in securing approvals for posting new positions, as well as on-going difficulties in offering staff employees career advancement opportunities.

3. The ongoing global economic crisis continued to pose a threat but we were able to develop new lines of work within our established areas. Although we expect to have success in these areas, future federal and state budget cuts may jeopardize our plans.
